

Brick: Reporting (or Business Intelligence, or Online Analytical Processing) Tools (Application software designed to retrieve, analyze, format and present data)

Domain: Data Services

Effective Date: December 18, 2015

Current	+ Two Years
1. Baseline Technology (Approved & supported for current usage.) <ul style="list-style-type: none">• Cognos• MS Access• MS SQL Server Reporting, Analysis, & Integration Services• Oracle BI Enterprise Edition• Oracle Reports• SAP Bus Object's Crystal Reports• SAS• Tableau	2. Mainstream Targets (Primary candidates for future deployment, subject to further review and acceptance by the CIO.) <ul style="list-style-type: none">• Descendants of Baseline Technology
3. Retirement Targets (Exit ASAP.) <ul style="list-style-type: none">• CA Platinum InfoReports• Oracle BI Standard Edition (Discoverer)• Predecessors of Baseline products that lag by more than one full version from those that are fully supported by the product vendor.	4. Containment Targets (Current usage approved. No further proliferation. Long-term exit plan. For waiver, follow Waiver Policy.) <ul style="list-style-type: none">• CA Easytrieve Plus• CorVu• Digital Metaphors Report Builder Enterprise Edition• Hummingbird Business Intelligence• IBM Query Management Facility• Oracle BI Standard Edition (Reports)• Sybase InfoMaker• Predecessors of Baseline products that lag by no more than one full version from those that are fully supported by the product vendor.
5. Notes: <ul style="list-style-type: none">• It is acceptable to use MS Access as a reporting tool. But MS Access is not approved as an enterprise DBMS.• Oracle Reports is really part of the Fusion Middleware, which is separately listed in the Web/Application Servers Brick.• SAS is approved for statistical analysis only, and not as a general-purpose reporting tool.• By default, Baseline Technology product versions are those that are fully supported by the product vendor. This includes "Extended Support", not just "Service Pack" or "Mainstream Support".
